During composition, a component in Eqs. (9) and (12) was erroneously omitted. The corrected equations are given as follows:

$$\text{if } K_l < K_{lo}, \quad c_1 = \frac{f'_c}{f'_{co}} = \left(\frac{K_l}{f'_{co}} \right)^{0.2} \quad (9)$$

$$\varepsilon_{cu} = c_2 \varepsilon_{co} + k_2 \left(\frac{K_l}{f'_{co}} \right)^{0.9} \varepsilon_{h,rup}^{1.35} \quad (12)$$

ASCE regrets the error.
